READY TO TALK?

Brother Sales Consultants are ready to help you make the most of this opportunity — fast. Let's talk today about using on-site, personalized embroidery services to win customers and build your business.

PR1055X

ADD A PERSONAL TOUCH TO YOUR CUSTOMERS' FAVORITE PRODUCTS

It's time to offer your customers a personal touch for their favorite products — custom embroidery, made on-site, *while they wait*. And using our compact, efficient, easy-to-deploy PR680W and PR1055X multi-needle embroidery machines will give you a real competitive edge.

PR680W

START CUSTOMIZING YOUR MERCHANDISE IN NO TIME

If you've been thinking of offering quick custom embroidery at your business, now's the time to do it. The PR680W and the PR1055X will have you up and running in no time. Fast, personalized embroidery can give your business a real advantage, especially during a busy holiday season. And with the fast, reliable, easy-to-deploy Brother machines, that could *even be this holiday season.*

CUSTOM EMBROIDERY MADE FAST, EASY AND COST-EFFECTIVE

You'll be up and running in no time

Industry-leading design and built-in tutorial videos will help your staff learn basic usage in 90 minutes. Customized onsite setup and training also available.

Everything you need to get started

With an extensive library of built-in embroidery designs and fonts, you won't need extra software to get going.

A range of design possibilities

Embroider almost anything, including caps, bags, shirts, and even shoes with the wide variety of included and optional embroidery frames.

Big potential, small footprint

With the compact designs of the PR680W and PR1055X machines, adding a new capability to your store doesn't mean losing valuable floor space.

Fast embroidery for fast service

Embroider up to 1,000 stitches per minute in just 7 seconds flat with industry-leading high-speed acceleration.

Become a design pro with intuitive editing features

Elevate your embroidery with the best-in-class editing features.

More spools, more productivity

Having 6 or 10 thread spools means producing a wide variety of multi-color designs without stopping to change thread - which means less distractions for your employees.

No-fuss needle threading

Unlike most industrial embroidery machines, needle threading is automatic and lightning-fast.

Real-time status updates

Together, powerful wireless LAN connectivity and a powerful app keep things humming. Follow the progress of your projects in real time via the My Stitch Monitor mobile app. Get alerts when it's time to change threads or when your embroidery is finished.

Get the big picture

A first-in-class crisp, vivid color LCD display makes for an intuitive, easy-to-learn system.

MAKE THINGS THAT WILL MAKE YOUR CUSTOMERS SMILE
