

# RESTAURANT SOLUTIONS FROM BROTHER

Accessible and Dependable Printing, Scanning,  
and Labeling for Restaurants

## Smart Print Management Designed for Restaurants

Having high quality output and reliable technology in food servicing can help enhance your customer experience, improve productivity, and increase food safety across your whole operation. Brother offers document management technology and solutions that deliver real benefits to your business to help keep your customers coming back.

### PROTECT CUSTOMER INFORMATION

Securing sensitive customer data and confidential information is a top priority for restaurant owners and food service operators. Brother printers, MFPs, and scanners offer triple layer security features that can help ensure the security of sensitive documents, devices, and networks – and protect customer information from internal and external security threats.

### ACCELERATE WORKFLOW AND INCREASE ACCURACY

Brother offers print and capture solutions that convert paper documents and images so that you can easily store, organize, retrieve, and share information with others. This helps facilitate communication and collaboration throughout your restaurant and between different locations, which helps save time, reduce human error, increase productivity, and improve document workflow.

# Printing, Scanning, and Labeling Solutions For Every Area of Your Restaurant Environment

## BACK OFFICE

## Brother Can Help Your Restaurant:

### Print On-Demand

Reliably print on-demand items at virtually any location, enabling you to immediately print disposable, single-use menus, which can be easily updated for daily specials and recycled after each use.

### Capture and Share Information

Brother offers solutions-based products and applications allowing you to capture documents such as reports, schedules, catering orders, and human resources documents and send or share information.

### Cut Costs

In today's environment and shifting economy, restaurants are required to do more with less. Brother offers the technology and tools to help restaurants and food servicing businesses meet monetary challenges with high quality, feature-rich products that increase productivity.

### Mobile Printing and Labeling Solutions for Restaurants / Food Servicing

Made-to-order food, in-store pickup, mobile orders, QR code menus, and deliveries have become a much larger part of the mix for restaurants. Generating accurate, real-time labels from a variety of devices and software platforms is a critical part of the equation. Brother is at your side with affordable, on-demand mobile printing and labeling solutions to help meet your restaurant labeling needs. Provide simple integration with your POS system using Brother software integration tools, while ensuring consistency and accuracy on every label.
