P-touch®

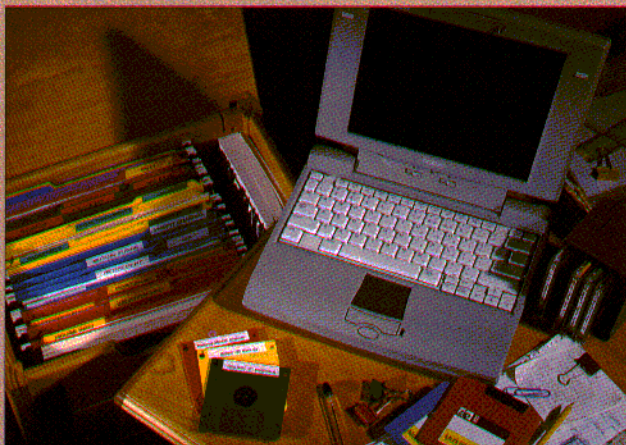

**MODEL
PT-1200**

The portable, handheld PT-1200 Electronic Labeling System affords home hobbyists and mobile professionals the ultimate in organizational convenience. It creates laminated, adhesive-backed, professional quality labels for practically any home/office, school, work or personal application.

The PT-1200 uses laminated "TZ" tape that adheres to virtually any surface, withstands variations in temperature and resists water. Place them on videotapes, file folders, glass jars, food containers,

computer disks, fuse boxes and more. Each color combination helps to differentiate and clearly identify an item's contents. Laminated, durable P-Touch tape is also great for labeling tackle boxes, collectibles and garden supplies.

The PT-1200 is easy to use. It has 8 type styles, 5 type sizes, prints horizontally and vertically plus prints up to 2 lines and underlines and frames text; all at the touch of a button. Organizing has never been this simple.
